## BUSINESS OF THE WEEK

### Custom Covers For Home & Office

Our Business of the Week is Custom Covers For Home & Office, your interior and exterior design specialists, located at 415 Main Street South in Exeter. Run by owners Wes Petch and Janice Brock, Custom Covers has over 25 years of experience providing custom window treatments, blinds, shutters, shades, panels, draperies and awnings to their clients' unique specifications, and within their budgets.

These Hunter Douglas Centurion dealers serve Exeter and the surrounding region; north to Goderich and Kincardine, east to Stratford and Kitchener, and south as far as London and Sarnia. As many of their clients also take up residence part of the year in Grand Bend, they've also been called on to do work at their homes in Toronto, Brock said.

Besides providing high quality, friendly service to their customers, Custom

Covers is also proud to be one of the few motorization specialists in Southwestern Ontario. They've been certified to wire homes for remote controlled window coverings.

"We do free in-home consultations, and delivery and installation is included

in our prices," Brock said, adding that there's a full lifetime warranty on their Hunter Douglas line, and that they also offer a one-year in-house full-service warranty.

Custom Covers has a show room where customers can come "see how the different products

work and different options that are available," Brock said, however, they also offer a unique "shop at home" service. "We bring all our samples to you," she said.

"We offer individual consultation to help you choose the latest in fabrics and styles to achieve the look and feel you desire. We also provide custom draperies and bedding which are made to order in our own on-site work room"

Designer and upholstery specialist Vanessa Graham is on hand to help clients with colour and style consultations for the bedroom, bathroom, sunroom and more.

"We're flexible in our hours and our days, so we basically will give you an in-home consultation seven days a week and any time that works for you," Brock said.
